

2023

Trash and Recycling Service Update from WM

Dear North Strabane Township Resident,

WM is the industry's leading provider for comprehensive waste management services. We are led by our Commitments and Values; putting these at the center of our daily actions and decisions. We will always put our people first and achieve our success with integrity. At WM we will never lose sight of the things we value most; inclusion and diversity, our customers, our environment and our dedication to safety.

As we enter 2023, WM will be altering the collection schedule for North Strabane Township Residents.

Effective January 20th, 2023, all residents will receive waste and recycling removal service on FRIDAY.

During the week of January 16, 2023, all residents will be serviced on their current service day. On Friday, January 20, 2023, ALL residents will receive trash and recycling service. Your trash service day moving forward will be Friday every week, and your recycling service will be on Friday every other week.

A 2023 collection schedule will be mailed to all residents.

We look forward to this change being a smooth transition. If you have any questions, please reach out to WM at www.wm.com.
